PARENT SATISFACTION WITH TIMETABLE

.....

"Our favorite part is meeting the teachers online, over Zoom meetings or videos or audio. The teachers of various subjects are all trying so hard to do their job, it is greatly appreciated. I know it is not easy for the teachers as it is not easy for the kids. They have to prepare for the course and activities of the day, check the homework while struggling to make the online system work. We are very grateful of having such dedicated teachers."
